Dear Alyson,

We want to express our gratitude to you, Joe Holt, Harry Bishop and Dave Duvak. All of you had a helping-hand in Jake achieving his summer goal of getting his private pilot rating prior to heading off to Embry-Riddle Aeronautical University in Daytona Beach, Florida.

As you know, we had a very tight time-line. While the weather cooperated, for the most part, we are most appreciative of the efforts that were put forth by Dave Duvak, Jake's flight instructor. In Dave Jake found a patient, knowledgeable and fun flight instructor, and in the end, a friend. Dave was always very responsive to our text messages and phone calls and maintained tremendous flexibility in coordinating Jake's training. His passion, enthusiasm and excitement about flight and teaching are very apparent. Jake really enjoyed flying with and learning from Dave, and he is hoping that his CFII at Embry-Riddle is as "cool" and patient as Dave was.

We are so fortunate to have found the Old Bridge Flight School! Everyone was so supportive and we are so grateful for your help in this. Thank you!!!

Very truly yours,

Phil & Mia Whitman
